Statement of Claims Addendum

I have mental health problems: Seizure/
Fugue State, Adult ADD And Chronic depression.
I had been receiving treatment and medication
prior to my being transferred, on 17 Nov. 05
from The Howard Young Correctional Facility in
Wilmington, DE, to The Delaware Correctional
Center in Smyrna, DE. I had also been
receiving treatment in the community, at
Hope Ridge Human Services in Winston-Salem,
North Carolina and other.

Upon arrival at The Delaware Correctional
Center, my medical records did not follow.
After a time, some medications were
administered, albeit haphazardly, at the
wrong times and sometimes in the wrong
amount.

One of my medications, which works in
synergy with the other medications, was
ordered by the psychiatrist, but has not
been administered by Correctional Medical
Systems.

To Clarify one Aspect of my Mental Health problem, I have difficulty in situations or environments where outside activities or stimuli exceed my limited threshold for interpretation. My neural system becomes overloaded, I have problems concentrating, I become confused, dissociated; my memory is effected, Sometimes I go into seizure or Fugue state. This, in turn, effects my Ability to Function — Sometimes I get "lost"

I Arrived here in Delaware, From North Carolina, Without Much Memory of it.

With the proper Medications I Can Function okay; but still, in certain situations/environments where there is too much confusion, Activity, Noise, etc — of a type which may seem Normal to others — I Suffer episodes of debilitation. I have, thus far, Received one Write up for being "OFF limits" trying to Communicate when I WAS having A problem.

I Am housed in an environment that is diversely loud and confrontational — An

III

Environment which is proving to contribute to my psychological deterioration. Sometimes I cannot think, read or write. I forget where I am. Without proper medication, it is worse. Sometimes I get strange and ominous feelings, like I am about to fall off the edge of something and I don't know what I will do. It is hard to explain. Often it is all I can do to hold it together. I have asked to see a mental health unit, but there is no reply re therapy.

As part of my mental illness I lose things. Some time ago I lost my dentures and I have problems eating - this leads to stomach problems. Since March 05, I have been requesting dental treatment. However, any real dental treatment is not accomplished.
